

Lab Work #06

CPL102: Object-Oriented Programming

SS2024

These exercises will cover the concept of HTML fundamentals and Graphical User Interface (GUI):

1. Design the student registration form using **HTML**. The following fields must be included:
 - a. Name
 - b. Student Number
 - c. Programme (Dropdown)
 - d. Year (Dropdown)
 - e. Semester (Dropdown)
 - f. Module(s) – use TextArea to list multiple modules
 - g. Amount (Nu.) if any
 - h. Submit (Button)

2. Implement using **Graphics** methods:
 - a. Draw a house with the help of Graphics Methods and include your house description
 - b. Draw a Smiley face
 - c. Create your own design using different shapes
